

# STUDENTS DROWN AS BOAT SINKS

Craft Sprung a Leak  
While Rowing in Mid-  
dle of the Stream

GIRLS WERE HELPLESS

One Youth Reached Shore But  
Returned to Rescue Girl and  
Both Went Down.

Wilkesbarre, Pa., May 12.—Eight  
high school students, six girls and two  
boys, lost their lives yesterday while  
boating on what is known as the  
old paper mill dam at Huntington  
Mills, about 20 miles below the city.

## THE DEAD.

- Maud Sutcliffe, aged 17 years, of  
Town Line
- Carolyn Koons, aged 16 years, Hat-  
tlesville
- Ruth Bonham, aged 15 years, Town  
Line
- Iris Davenport, aged 16 years, Wat-  
ertown
- Rachel Thompson, aged 16 years, Wat-  
ertown
- Madeline Good, aged 17 years Wat-  
ertown
- Robert Minnich, aged 18 years, Koon-  
sville
- Ray Dodson, aged 17 years, Fair-  
mount

Twelve students of the Huntington  
high school obtained two boats at the  
noon hour and started for a row above  
the dam. The dam is nearly half a  
mile in width and when the two craft  
had reached the center of the body of  
water it was noticed that one of them  
had sprung a leak. The two boats  
were then pulled together by the  
young men in the party and an effort  
was being made to transfer the girls  
from the leaky boat to the safer craft.

The last one of the party had scarcely  
set foot in the boat when it began to  
sink, owing to the combined weight  
of the party.

The girls were helpless to save  
themselves and the boys, with the ex-  
ception of Dodson, being expert  
swimmers, struck out for the shore,  
which all reached in safety. Minnich,  
in the excitement it is presumed,  
thought that all the young women  
had succeeded in reaching land.

He had no sooner gained the bank  
than he noticed the girls hanging in  
the rapidly sinking boat. The boy  
dashed into the water and swam  
swiftly to the water-filled craft. Only  
two of the girls were clinging to the  
boat, the others having gone down for  
the last time. Seizing Miss Daven-  
port, Minnich again started for the  
shore, but the exertion was too much  
for the gallant lad and the two went  
down together, when they were with-  
in a stone's throw of the bank.

When the boat began to leak, there  
was no excitement but as soon as the  
sound craft began to fill with water,  
it appeared as though all became ter-  
ror-stricken. The shriels of the  
drowning girls could be plainly heard  
on the bank of the dam but there was  
no one near who could launch another  
boat and go to the rescue of the im-  
periled party.

Three of those who were drowned  
would have graduated this summer.  
Minnich and the Misses Pontam and  
Good.

Hundreds of persons formed trap-  
ping parties at once and began a  
search for the bodies. After trap-  
ping for less than two hours all the  
bodies were recovered.

## BUSINESS AT STANDSTILL.

Wilkesbarre, Pa., May 12.—Busi-  
ness has practically been suspended  
and the town of Huntington Mills is  
in mourning today for the eight stu-  
dents of Huntington Academy drowned  
last night during a boating party.

## WINS AGAINST COUNTY.

Steuensville, May 12.—The sec-  
ond trial of the county treasurer  
against William G. McCullough, the  
Yellow Creek millionaire for \$60-  
000 back taxes, resulted in a ver-

proved a residence in Sewickley, Pa.  
for 25 years. The jury disagreed at  
the first trial.

Washington, May 12.—Representa-  
tive Harrison, of New York, today  
withdrew his resolution asking for

with bad faith.

# UPRISING

Of Natives Fanned by England Fol-  
lowing Confusion Resulting from  
Death of King Edward.

Cairo, Egypt, May 12.—English au-  
thorities here are taking every pre-  
caution to prevent an uprising of the  
natives whom they fear will seize up-  
on the confusion resulting from King  
Edward's death as an opportunity  
for insurrection. Troops are being  
constantly drilled and the government  
has stopped the leave of all British  
army officers.

# DR. HYDE

Predicts That He Will Be Acquitted  
and Says Friday the 13th Has  
No Terrors for Him.

Kansas City, Mo., May 12.—"Friday  
the 13th has no terrors for me, and I  
will be acquitted," said Dr. Hyde at  
his trial today. Attorney Walsh  
made an impassioned plea to the jury  
for acquittal, and Special Prosecutor  
Atwood demanded the doctor's con-  
viction, branding him a criminal.

Hyde's wife, daily expecting a vis-  
it from the stork, remains with her  
husband. Friends believe she will  
collapse.

Attorney Brewster, for the defense  
made the most emotional appeal for  
acquittal ever heard in a Missouri  
court room. He startled the court  
by addressing his appeal personally  
to Juror Crone, whose son was hanged  
some time ago after being convicted  
of a murder on circumstantial evi-  
dence. When Brewster finished, the  
whole room was in tears.

Dick's name off the ballot at next  
Tuesday's primaries. Dick is seeking  
an endorsement by resolution of the  
United States Senate.

Columbus, May 12.—Mark Slater,  
former state printer, declined today to  
begin his sentence in the penitentiary  
for fleeing the state, on Friday, the  
13th.

I would rather lose one day of my  
life than go to a place where I  
shall be a convict, he told his  
lawyer. He will begin sentence to mor-  
row.

# WHAT IS IT?

# HEINZE WAS ACQUITTED OF CHARGES

Government Defeated in  
Case Which Lasted  
Nearly 3 Weeks

GREAT DEMONSTRATION

Given Copper King, Upon An-  
nouncement, of Verdict by  
Friends and Relatives.

New York, May 12.—F. Augustus  
Heinze was acquitted in New York  
last night of charges of misapplying  
the funds of the Mercantile NaConal  
bank while he was president of the  
institution in 1907, and he was  
cleared of the charge of over-certify-  
ing the checks of his brother's  
firm, Otto Heinze & Co. A jury in  
the criminal branch of the United  
States circuit court, after a trial  
lasting nearly three weeks, found  
him not guilty at 9:50 last night,  
and he was discharged.

Thus failed the federal govern-  
ment's attempt to hold Heinze re-  
sponsible for financing, during the  
panic of three years ago alleged to  
be in violation of the national  
banking laws.

John B. Stanchfield defended the  
young millionaire; Henry A. Wise,  
United States attorney for this dis-  
trict, fought to convict him. Mr.  
Stanchfield summed up for the de-  
fense, and Mr. Wise denounced the  
defendants for three hours and 25  
minutes.

Arthur Heinze, a brother of the  
defendant, called Mr. Wise a liar in  
court yesterday afternoon, thereby  
furnishing the only real spectacular  
incident of the trial. For his re-  
mark he was promptly ejected from  
the courtroom, his tense white face  
showing his anger and emotion. His  
wife, who also had been an interest-  
ed auditor, followed him.

Heinze issued this statement last  
night after his acquittal:

"I am naturally pleased with the  
verdict, but not at all surprised. The  
thing I most regret is the long de-  
lay in bringing the case to trial. I  
have been ready for trial every day  
since the first indictment was re-  
turned two years and a half ago.  
This delay has cost me between  
\$4,000,000 and \$5,000,000. Possi-  
bly some persons who were very  
anxious to see me convicted will be  
as well satisfied with this as though  
I had been found guilty, for the  
ruination of my credit seems to have  
been one of the objects most vicious-  
ly aimed at."

When the jury filed in at 9:30 and  
announced that a verdict had been  
agreed upon, the courtroom was so  
quiet that a pin could have been  
heard to drop. Heinze looked hard  
at each jurymen as he took his seat,  
but that was all. He showed no  
trace of nervousness.

When Foreman Lavell of the jury  
announced "we find the defendant  
not guilty," his voice rose to a hys-  
terical shout. Instantly the court-  
room was in an uproar. It was  
crowded with the defendant's friends  
who shrieked exultantly and gave  
loud hurrahs of joy. Marshals banded  
violently on the benches and finally  
restored order, while the jurymen  
filed out of court. As each  
juror left his seat, Heinze shook his  
hand warmly. Men and women  
pressed eagerly forward and sur-  
rounded Heinze and sweeping  
through the railed enclosure em-  
braced him. During this disorder  
Judge Hough quietly left the bench.

Heinze by this time was laughing  
hysterically as he received the kisses  
of his women relatives and the con-  
gratulations and backslapping of the  
men. Out into the corridor he was  
pushed, where the scene of enthus-  
iasm and disorder was repeated.  
Closely surrounded, he was almost  
carried down the stairway to the  
street, where the crowd gave a final  
cheer of victory.

## Celebrate Heinze's Acquittal.

Butte, Mont., May 12.—Almost  
the entire town is suffering the woes  
of the morning after. The lid was  
removed last night and the town en-  
joyed a wild orgy of fizz water and  
hard liquor until the supply was de-  
pleted in celebration of the acquittal  
of Fritz Augustus Heinze, the cop-  
per king. Thousands of congratula-  
tory telegrams were sent to Heinze.

The man who writes shorter hours  
might work harder. That makes the  
hours seem shorter, at any rate.

of the Soldiers' Home here today vi-  
grously denied charges made in the  
House at Washington yesterday by

better treatment than at any similar  
institutions in the country," Clark said.

thousand dollars with him.

# HAS PURCHASED PREPARATORY SCHOOL FOR YOUNG LADIES

Newark people will be interested to  
learn that Prof. F. Martin Townsend,  
who for several years was superin-  
tendent of the Newark public schools,  
has sold his half interest in the  
Bishop Thorne School for girls at  
Bethlehem, Pa., and purchased Glen  
Eden Seminary on the Hudson river,  
a preparatory school for young ladies.  
Mr. and Mrs. Townsend will take pos-  
session on July first and after the build-  
ings have been remodeled and refur-  
nished throughout, the regular school  
year will open October 2 and close  
June 1 with the usual vacations. Miss  
Louise Smith of this city, a Vassar  
student, who has been with Mr.  
Townsend at Bishop Thorne, will be  
the house mother of the school.

Prof. Townsend is delighted with  
his purchase. The large commodious  
buildings which will accommodate  
about fifty young ladies are surround-  
ed by twelve acres of beautiful  
grounds overlooking the Hudson river  
and near West Point. The school  
is located in the Highlands and is  
exclusive, and is a very desirable

# THE HOME-COMING

New York, May 12.—Applications  
of those wishing to take part in the  
reception of Colonel Theodore Roosevelt  
upon his return to America on June  
15th indicate that the demonstration  
will be one of the largest in the his-  
tory of New York. Every mail brings  
in letters from individuals or com-  
mittees offering their services to the  
reception committee of which Cornell  
Van Dusen is chairman.

# ARE PLANNING BIG RECEPTION

New York, May 12.—The flood of  
applications for places in the demon-  
stration of welcome for Colonel Theo-  
dore Roosevelt, indicates that it will have  
a large place in history. A fleet of sev-  
eral hundred boats will meet the  
Colonel Roosevelt in at quarantine and ac-  
company him to land where thousands will  
be waiting to greet him.

# STUDYING ALL SOCIAL PROBLEMS

Colonel Roosevelt Makes  
Thorough Investigation  
of Conditions in Berlin

FRIENDLY WITH KAISER

Ex-president Idol of the German  
Populace—Plans for New  
York Reception.

(Ev Staff Correspondent of the United  
Press.)

Berlin, May 12.—Colonel Roosevelt  
today gave further evidence of an in-  
tention to apply himself to social  
problems, particularly the care of the  
helpless aged, when he returns to  
America. Today he followed up his  
recent investigation of the Danish Na-  
tional Home for old people, conducted  
while he was in Copenhagen by visit-  
ing the model poor houses, homes for  
old people, and insane asylums in the  
environs of Berlin. The trip was made  
in an automobile and under the guid-  
ance of the burgomeister.

Today's visits were not on the orig-  
inal program, but were substituted for  
the social features planned, at Roose-  
velt's request. The Colonel declared  
that he was greatly interested in the  
problem of caring for the aged and  
those who, through no fault of their  
own, have failed in life's struggle.

Colonel Roosevelt gathered all avail-  
able statistics on these subjects here  
today and announced that he would do  
the same when he reached London  
with a view to making a comparative  
study of the question as presented in  
Europe and America. It is understood  
that much of his conversation with  
the Kaiser had to do with the social  
and industrial problems engaging the  
attention of Germany and America.

Roosevelt was in the best of spirits  
today and his voice showed a big im-  
provement despite the strain upon it  
by yesterday's lecture. Berlin sim-  
ply can't get over the terms of extreme  
democracy established between Roose-  
velt and the Kaiser, and there is open  
wonder as to what would have hap-  
pened had the Kaiser not been under  
restraint from the death of the King  
of England. Formally and traditions  
have been cast aside by the Kaiser  
and he is treating Roosevelt on more  
friendly terms than were ever shown  
to another visitor.

The spectacle although in the na-  
ture of an affront to the strict royal-  
ists, greatly pleases the public and  
has made Roosevelt almost an idol to  
the German populace.

Mrs. Roosevelt and Miss Ethel spent  
the forenoon in buying mourning  
dresses to wear at King Edward's  
funeral.

The local feeling is that Roosevelt's  
appointment as American envoy to  
Edward's funeral was instigated by  
the British foreign office as a solution  
of the problem of giving the ex-Pre-  
sident a position befitting his greatness  
in the funeral procession.

Roosevelt has given little thought,  
as yet, to what position he will take  
in the procession. He assumes that  
Whitelaw Reid, the American ambas-  
sador at London will see to this sat-  
isfactorily.

# THE HOME-COMING

New York, May 12.—Applications

reception of Colonel Theodore Roosevelt  
upon his return to America on June

will be one of the largest in the his-

The Republican club of the city of  
New York has chartered a large  
steam boat which will meet Roosevelt  
at Quarantine and escort him up to  
his home. Roosevelt himself coming up  
on a canoe cutter to the Battery where  
he will land to be received by Mayor  
Governer.

The African big game club, com-  
posed of men who have hunted in Af-  
rica, has volunteered to take part as  
a body. Lloyd Griscom, chairman of  
the Republican county committee, re-  
quests that he be arranged with the  
Republican county committee leaders  
in 35 assembly districts to take part  
in the reception. Each will send a  
delegation which will march in the  
lead of the parade with six bands.

The reception committee has at-  
tached with the steamship line to  
have the Kaiserin Augusta Victoria,  
on which Roosevelt returns, come of  
quarantine at exactly 1 o'clock on  
June 15. If the vessel should be  
ahead of schedule she will be held  
back. It is late she will be  
brought in under forced draught.  
Colonel Roosevelt there will board a  
revenue cutter and accompanied by a  
fleet of pleasure and excursion boats  
and will come up to the Battery,  
where Mayor Governor will receive him.  
From this point the procession will  
move up Broadway to Washington  
Square to Fifth avenue, to Fifty-ninth  
street where it will be dismissed.

## WHAT IS POPULATION OF NEWARK IN 1910? \$25 IN PRIZES OFFERED

The census enumerators have completed their work in Newark, but it will be some time before the 1910 census figures are announced.

Already people are guessing the population of Newark. Some think the figures will run to 35,000 or more, others believe the population will not go above 22,000 or 23,000. What is your idea? In 1900 Newark's count was 18,157. What is it in 1910?

To make the guessing more interesting the Advocate offers \$25.00 in prizes as follows:  
First prize—\$10 cash.  
Second prize—\$5.00 cash.

### FISH IN ENCLOSED WATERS.

Wild Duck Stacked Fresh Pool with Finny Canizans.

Many people, not without education and a general knowledge of natural history, are mystified by the presence of fish in enclosed waters. For many years there was open-mouthed wonder over the perch, bream, and crayfish found in the newly cut dams near the Marguerite river in New South Wales. In some cases the water had scarcely settled after the rain had filled the dam than the fish were observed, and the Australian farmers started a theory of spontaneous production. This obtained, and gained wide credence, until a Sydney professor chanced to pick up a wild duck and found its breast feathers and webbed feet well dotted with fertile and almost hatched fishova, on which the "spontaneous production" theory was promptly withdrawn.

### Deserved a Thrashing.

The mother of the twins found them fighting furiously. Willie, the larger twin, was on top. He was beating Tommy about the face and head.

"Why, William, how dare you strike your brother like that?" cried the mother, taking the boy by the ear and pulling him off.

"I had good cause to strike him," answered Willie.

"What do you mean?" she asked.

"Why," said Willie with a righteous air, "didn't I let him use my sled all last Saturday on condition that he'd say my prayers for me all this week? And here I've just found out that he's skipped three days."—The Housekeeper.

### Sugar in the French Army.

In the French Journal of Military Medicine and Pharmacy reference is made to the fact that during some military maneuvers for three weeks the soldiers were given from 60 to 165 grams of sugar, replacing one-half of the meat ration of two companies of French soldiers. The sugar was taken readily in wine, water or coffee and no digestive disturbances were noted.

Five soldiers for three days took a larger amount of sugar, viz., 300 grams, in place of the entire meat ration. The author's opinion was to the effect that the men were in better physical condition and had more endurance than on their ordinary ration, all of which coincides with very many other similar observations.

### Odd Bits of Fact.

The United States consumes 80,000,000 pounds of tea annually.

A man can insure against loss in lotteries with a company at The Hague.

There are more doctors per capita in New York city than anywhere else in this country.

Sealing wax contains no wax.

The Dutch throne has forty-one possible claimants.

Potatoes, steeped in sulphuric acid and subjected to pressure make an excellent substitute for ivory in the manufacture of billiard balls.

### Power of Public Opinion.

The internal waterways are like everything else in this country. If the people realize their importance and the impulse and vast importance they will be to the national commerce and make up their minds they must have waterways, they will get them. There is practically nothing which cannot be done by the force of public opinion. All other forces and factors find themselves obliged to yield to its power.—Baltimore American.

### "I Told You So."

An old couple lived in the mountains of Eastern Tennessee; he was ninety-five and she ninety. Their son, a man of seventy, died. As the old folks crossed the pasture to their cabin after the burial, the woman noticed a tear roll down her husband's cheek. She patted him tenderly on the arm and said:

"Never mind, John, never mind; you know I always said we never would raise that boy."—Success Magazine.

### Anything But That.

Little John is the youngest of a family of five boys. One day his mother said to him, "O John, isn't it too bad I haven't one little girl? I could curl her hair and make such pretty little dresses for her. Don't you wish you were a little girl?" John granted disgustedly, "Why, mother," he said, "I'd rather be most any other kind of an animal you could mention than a girl!"

### The Revolver Habit.

Will the time ever come when the revolver will have had its day in America and be relegated with the sword, the dagger and the bludgeon? The revolver argument settles nothing but the contestants. It is a perpetual non sequitur, as childish as it is frightful, and as frightful as it is childish.—Minneapolis Journal.

The Right Definition for "Weird." Little Frances, aged four, was being put to bed alone for the first time. "Mother," she said, "I do not like this room. It is so weird-looking."

"What does 'weird' mean, dear?" asked her mother. "Why," she replied, "weird is long and dark and no-father-and-motherish looking."

## OUR BOYS and GIRLS

### HISTORY SHORT CUTS

Three Times Three Brothers on the French Throne.

When I was at school, my teacher, who was quite a remarkable historian, called by attention to a somewhat curious coincidence in the history of France, which was of much assistance to me afterward in placing various personages and events. Perhaps the boys and girls of the present day have already made this discovery, but lest they have not, I am going to tell them what my teacher told me.

It is simply this: That since France became a kingdom by itself, under Hugh Capet, three brothers have ruled in succession at three different times, and after each of these groups of royal brothers a family, with a new name has come upon the throne.

The first time his trio of brothers occurred was in 1314, when, at the death of Philip IV., called "le Bel," his son Louis X., named by the people "Hutin" on account of his quarrelsome disposition, became king. In two years he was followed by his brother Philip V., who reigned but six years, and then came the third brother, Charles IV.

These three were the last of the direct Capetian line, and were succeeded by the first Valois king, their cousin, Philip VI.

The next group of three brothers ended the reign of the Valois family. They were the sons of Henry II., who died in 1559, and their mother was Queen Catharine de Medici. The first was Francis II., who was king only a year, and who is remembered more because he was the first husband of Mary Queen of Scots than for any other reason. The second was Charles IX. These two brothers had both been very young, boys of fifteen and ten, when they were made kings. The third, Henry III., had grown up before his turn came, but he was certainly no better than his brothers. He was killed by Jacques Clement, a monk, in 1589, and Henry of Navarre, the first Bourbon king, came to the throne under the title of Henry IV.

The three brothers came again after nearly two hundred years, when in 1774 Louis XV. died, leaving three grandsons. The first of these to rule was the unfortunate Louis XVI. You all know of his queen, Marie Antoinette, and how he and his wife were both beheaded, and their poor little son, the Dauphin, who would have been Louis XVII, had he come to the throne, died of hard treatment in prison, and the two brothers, who were to be kings later, had to keep away in exile. It was a long time, and they were old men before they were crowned, because France went through many changes, first as a republic and then under the Directory, then under Napoleon Bonaparte as first consul, and afterward Emperor. But the Battle of Waterloo was fought and Napoleon was sent to St. Helena, and the two remaining Bourbon brothers, first Louis XVIII, and then Charles X. had their short reigns. And so ended the straight line of Bourbons, for after them came Louis Philippe of the house of Orleans, who no longer called himself King of France, but "King of the French."

So we have the three Capet brothers:

- 1314. Louis X.
- 1316. Philip V.
- 1322. Charles IV.

followed by the house of Valois.

After a little more than two hundred years come the three Valois brothers:

- 1559. Francis II.
- 1560. Charles IX.
- 1574. Henry III.

followed by the house of Bourbon.

Then, after a little less than two hundred years more, come the three Bourbon brothers:

- 1774. Louis XVI.
- 1816. Louis XVIII.
- 1824. Charles X.

followed by the Orleans family, and soon after by another republic and the Second Empire.

Curiously enough there has been one similar instance in English history, when Henry VIII. died, and his son, Edward VI. became king in 1547. He was succeeded by his two sisters and they were the last of the house of Tudor:

- 1547. Edward VI.
- 1553. Mary.
- 1558. Elizabeth.

followed by the house of Stuart, James I., the son of Mary Queen of Scots, was the first Stuart king.

## CONFIDENCE WELL PLACED

Dr. Williams' Pink Pills Cured Mrs. Sidle of Stomach Trouble So She Tried Them for Rheumatism and Got Well.

In cases of weak stomach where the patient is pale and the blood thin, the first step toward restoring the activity of the stomach is to improve the condition of the blood. A supply of rich, well-oxygenated blood is necessary to the processes of digestion and with it, if errors in diet are avoided, nature will work a cure. This is known as the tonic treatment for indigestion and is well illustrated by the experience of Mrs. Curtis Sidle, of No. 71 W. Larwell street, Wooster, Ohio, who suffered from stomach trouble for several years. Mrs. Sidle, whose husband is a retired farmer, is well known and respected in Wooster. Her experience follows:

"We formerly lived on a farm and I think my stomach trouble began when I suffered for six years, was brought on by overwork. My blood was in bad condition and nothing that I ate agreed with me. I would have spells when my heart palpitated so that I would have to lie down. The constant suffering made me nervous and weak.

"Our doctor said my trouble was indigestion but I could not see that he helped me although I doctored with him for over two years. I was naturally discouraged and later when a friend urged me to take Dr. Williams' Pink Pills, I bought a few boxes for a trial. In a few days I saw a great change. I took the pills a while longer and was cured."

About a year later I was taken with rheumatism which followed an attack of the grip. My arm and shoulder were so cramped that I could not dress myself and my left knee was swollen and gave me a great deal of pain. I went back to Dr. Williams' Pink Pills and they cured me of the rheumatism also. So I can recommend the pills highly and think they deserve all the praise that can be given them."

The tonic treatment with Dr. Williams' Pink Pills, building up the blood so that it can nourish and strengthen the weakened digestive system has made hundreds of remarkable cures.

For further information about this treatment, send for our free diet book. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 20 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

Consistent wrong to no one, faithful and true friend, upright and honest dealing, kind and obliging neighbor, thoughtful and devoted father and husband. He was orthodox in his religious belief, loved to attend divine services and gave to the support of the church.

Patience he bore his last weary illness, shrinking not at the thought of death: "Like one who wraps the drapery of his couch about him, and lies down to pleasant dreams," so he approached the grave. Just before he died he urged his devoted wife to partake of the evening meal, saying, "I will be asleep when you come back." These were his last words and were prophetic, for when his wife returned a few minutes later he was passing into that happy slumber.

## Helpful Beauty Hints

Valuable Hints that Every Woman  
Should Grasp—How to Keep Young  
—For Red Lips—Lotion to Relieve  
Red Nose—Salt for the Teeth—Fo-  
made for Reducing Thick Lips.

The best wash for the hair is soap bark.

Salt water used as a gargle will strengthen the throat and harden the gums. Used as a wash it will strengthen weak eyes; used in the bath it is a tonic; as a lotion for the hair it prevents and stops its falling.

The hot curling iron dries and hardens the hair so that after a time the hair has a colorless dead appearance. Never clip or trim the eyelashes, or eyebrows. It makes them coarse and stubby.

A lotion of lemon juice and glycerine applied several times a day will reduce large pores on the nose and chin.

To remove superfluous hair, get a toilet pommice stone from the drug store; lather the part with a pure soap and rub the pommice stone over it. Wash the lather off and apply cold cream. Do this every day until the hair is gone.

In the facial massage, always make the motions circular, up and out, never down.

"Is it true that automobilizing hurts the face?" It is undoubtedly true; but most chaps who are hurt don't know it.

#### Health Notes for Women.

Eat plenty of spinach and dandelion greens. These are valuable on account of their laxative effects.

The best remedy for red cheeks is deep breathing in fresh air, night as well as day time.

Braid the hair at night in two braids. Tie but do not turn up the ends.

Thin eye brows may be made luxuriant by the rubbing in of olive oil. Keep up for some time.

The time for a cold bath is before breakfast.

After much discussion, it finally seems to be decided that a nap after the mid-day meal is beneficial to digestion, and to be encouraged where possible.

The cause of constant yawning is lack of oxygen. A walk in the fresh air often relieves it.

A fever blister touched with a drop of sweet spirits of nitre will disappear.

#### To Keep from Growing Old.

Many women become middle aged from the simple reason that they allow middle-aged habits to steal upon them and relapse into a state of physical indolence just at a time when they should fight against this tendency to give up exercise. "The best preventives against growing middle aged," says a charming woman of 45, whose unwrinkled face and slim figure give her the appearance of being at least 15 years younger than her real age, "are cheerfulness, a strict determination not to worry over trifles, and a sense of humor that save one from depression. A cold tub every morning, a walk every day in rain or sunshine, face massage with cold cream at night, ten minutes' physical exercise immediately on rising, friction of the hair to stimulate its growth, will keep any woman free from wrinkles and will preserve the contour of her figure."

#### Red Lip Salve.

Cinderella.—My lips are pale and purplish and not a good color. Would you recommend the use of a red lip salve?

To redden the lips artificially would detract from your looks rather more than pale and purplish lips. You can help matters very much by massaging the lips and applying camphor and vaseline in the manner just described. Rub the lips with the finger tips, which stimulates the circulation. Pallor of the lips indicates a lowering of the tone of the whole body, and shows that you need a tonic.

#### For a Red Nose.

If your nose is somewhat swollen and red, try this formula:

Muriate of ammonia, 1 dram; Tannic acid, 1-2 dram; Glycerine, 2 ounces; Rose water, 3 ounces.

Dissolve the muriate and acid in the glycerine and add the water. Saturate a piece of absorbent cotton with the lotion and bind on the nose every night until the trouble is relieved.

#### Salt for the Teeth.

I have read that salt is good for the teeth. What kind of salt should be used, and how often?—P. L.

The salt used on the teeth should be finely powdered table salt, for if it is too coarse it is apt to scratch the enamel. Do not use the salt more than once a week.

#### To Remove Stains from the Hands.

What is a safe thing to use on the hands to remove stains from housework or ink stains?—C. A. G.

A piece of lemon is very good for removing stains from the hands, and pumice stone is most effectual when the hands have become marked with ink.

#### Pomade for Reducing Thick Lips.

Melt an ounce of any of the cold creams, add one gram each of pulverized tannin and alkanet chips; let macerate for five hours, then strain through cheesecloth. Apply to the lips when necessary.

## CAPT. DUNN'S STATEMENT

To the Citizens of New York and Vicinity.—There are a number of men and women soliciting in this and other cities of Ohio who style themselves "Christian Volunteers." They wear a yellow band around their hats and bonnets. Upon investigation I find that they are soliciting for a living and not for any charitable purpose. The y claim they have a right to do this because they go upon the streets at night to hold services. I have not heard of any hall where they hold public services.

I am publishing this information so that the public may know what becomes of donations which they receive. In some towns they are soliciting under the name of the Salvation Army thereby getting money under false pretenses. I wish the public would exercise care in donations and look for the "I" in front of the cap. Ours is the red word with gold letters.

C. W. CLINN.

Captain Salvation Army.

THE CHRISTIAN VOLUNTEERS.—Dear Christian Friends.—Ours is the being another body of people in this city known as the Salvation Army that hold meetings on the street like we do. I thought best to explain our work. We are the yellow band with letters "C. V." on the back of our coats and the name "Christian Volunteers" on all of our caps and papers so there can be no mistake made. Our aim is to lift up fallen humanity and get the dear ones to God.

We have clothing for the poor and needy at the corner of Fifth and Crowe, South Fifth street, and I could be glad to have the dear ones that are in need of clothing call and see the same. Respectfully

BRIG FRANK CLOWE.

In Command of New York.

TOY RIFLE KILLS BOY.

Wheeling, W. Va., May 13.—A 22-caliber toy rifle with which he was playing at his home at Burlington, just above Martins Ferry, last evening, discharged, inflicting a wound that caused the death of George Ryan, 12 years old, an hour later. The bullet passed through the boy's body near the heart.

Music may have charm to soothe the savage breast, but the girl next door who sounds the piano all day and night doesn't always prove it.

It is well to be lenient with the faults of those who are bigger than we are.

It is also well to bear in mind that all things wait for those who go after them.

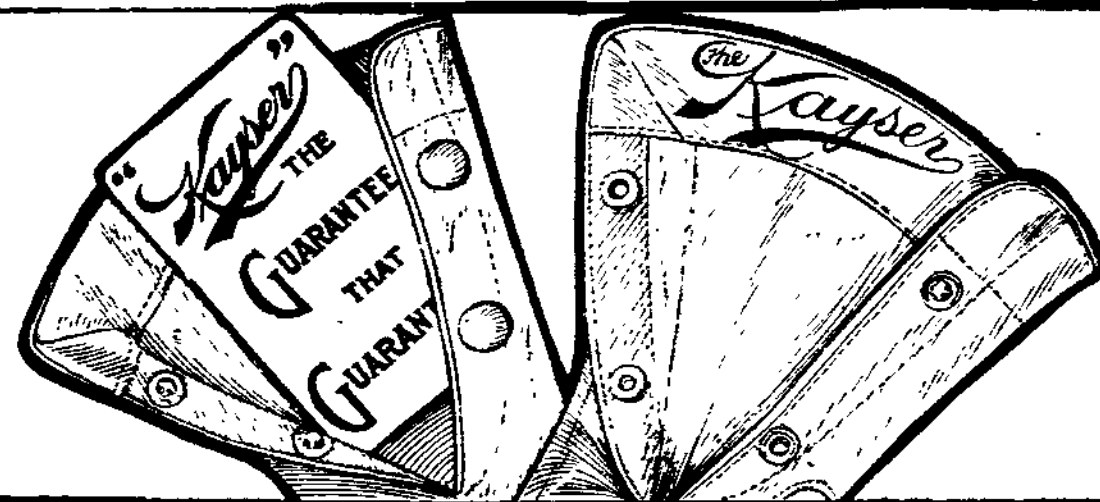

Some fellows are actually too lazy to brag about how they used to work.

## TUMOR OF YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

Holly Springs, Miss. "Words are inadequate for me to express what your wonderful medicine have done for me. The doctors said I had a tumor, and I had an operation, but was soon as bad again. I wrote to you for advice, and began to take Lydia E. Pinkham's Vegetable Compound as you told me to say that now I look

and feel so well that my friends keep asking me what has helped me so much, and I gladly recommend your Vegetable Compound."—Mrs. WILLIE EDWARDS, Holly Springs, Miss.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give everyone confidence.

If you would like special advice about your case, write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

HOW TO CURE ECZEMA, PIMPLES, AND DANDRUFF.

We desire to say that when we took the agency for ZEMO, we were convinced that it was a valuable remedy for Eczema, pimples and dandruff. Yet, we must frankly admit that Zemo has far exceeded our expectations as a treatment for skin diseases. We are pleased to state that we shall continue the agency as ZEMO has given splendid results wherever recommended. Our customers like ZEMO too, because it is a clean vegetable liquid for external use.

ZEMO effects its cures by drawing to the surface of the skin and destroying the germ life that causes the disease, leaving the skin clear and healthy. It does not soil the clothing or linen and can be used freely on infants.

With every purchase we give a booklet on skin diseases explaining in simple words how any person can be cured at home of any form of skin or scalp diseases by this clean, scientific remedy. T. J. Evans' druggist.

We have just received another shipment of children's hats, so those who could not be supplied will find ample assortments to choose from here tomorrow.

### Woman's Everyday Mistakes.

The big mistakes of life a woman is apt to recognize, regret and avoid repeating, if possible. But the little mistakes she does not recognize and keeps on repeating every day. While they may not have the serious results of the big mistakes, they nevertheless fritter away time, use up energy and rob life of much satisfaction and joy. She should, therefore, take heed of them if she wishes to get the most out of life.

Many a business woman tries to be a business woman and a home woman at the same time, with the result that her world is chaos. She has, perhaps, a little menage, where she tries to get her own meals, and as a consequence either overworks herself, or else does not get the nourishing, appetizing, varied food her work makes it imperative that she have.

Or else she tries to make her own clothes, with the result that she either never has anything to wear or sits sewing until midnight and after, when she should be sleeping. Many a woman lets go lingeringly of her home life when she goes into business. She thinks she can tuck parts of it into spare corners of time she will have. But this is a mistake.

Business, if a woman gives herself to it, as it requires her to do nowadays, is enough. What time is left she needs for rest and recreation. Women do not yet see this new life in its true proportions. They overestimate their energy and they stretch the working day beyond its rightful limits. But there is just so much time, so much energy and so much work. They must learn to fit these together with the mathematical precision that will mean good work, well-used time and un depleted energy.

Many a woman does not pay sufficient attention to the matter of eating. If she has a hard day's work she will not stop for lunch. The very day she needs food most she fails to take it. She is given also to eating irregularly, to eating between meals, to nibbling at candy if it is about. It has almost passed into proverb that if the men of the household are absent, the women take think with relief that any sort of

a scrappy meal will do, or that they can omit a meal altogether. All this affects the health. It may be sometime making its impression, but as sure as two and two make four, it eventually lowers the vitality. Woman pays for this mistake in one way or another.

If many a woman is careless about her eating, she is equally careless about the matter of rest. She does not seem to realize the value of rest or what rest really is. She will sit down to rest, as she says, and darn or sew or read. These are all taxes on the strength and the nerves. Real rest means absolute relaxation. Ten minutes of this in a quiet, darkened room is worth more than an hour sitting sewing or reading. And it will return the time taken for it in increased ability to work. It is neither loss nor waste.

Worry is one of the commonest, everyday mistakes of womankind. The "brides women cross." The brides women build! Women worry over far more things that never happen than they have real cause for worry over actual happenings. Worry lines the face with wrinkles and saps the springs of energy.

All these little mistakes that many a woman commits unconsciously, or at least without realizing their injurious effects, rob life of much joy. Traced to their ultimate cause, they result mostly from the fact that woman is a creature of moods and impulses. She does not reason out in a logical, common-sense way what is the wise thing to do and then resolutely stick to doing it. She acts on the impulse of the moment. It is, of course, the result of the life that she has lived in the centuries that are past. But a new era is ahead of woman, bright with the promise of greater satisfaction and happiness in living than she has ever known. To get the most out of it she wants to be reason and self-control take the helm and let whim and impulse go with the other discarded and discredited things that she is putting behind her.

## STOMACH DEAD MAN STILL LIVES

People who suffer from sour stomach, fermentation of food, distress after eating and indigestion, and seek relief in large chunks of artificial digestors, are filling their stomachs by inaction just as surely as the victim of morphine is deadening and injuring beyond repair every nerve in his body.

What the stomach or every sufferer from indigestion needs is a good prescription that will build up his stomach, put strength, energy and elasticity into it and make it sturdy enough to digest a hearty meal without artificial aid.

The best prescription for indigestion ever written is sold by druggists everywhere and by Evans' Drug Store, and is rigidly guaranteed to build up the stomach and cure indigestion, or money back.

This prescription is named Mi-on-a, and is sold in small tablet form in large boxes, for only 50 cents. Remember the name, Mi-on-a stomach tablets. They never fail. They contain ingredients that give quick relief (other than strong digestors), but they are compounded for the purpose of making the stomach strong and energetic enough to do its work without the aid of harmful drugs.

## AMUSEMENTS

**PHIL MAHER STOCK CO.**  
Phil Maher and his company pleased a large audience at the Auditorium last evening. "The Village Vagrant" was one of the best plays of its class ever seen here. To be carried from the turmoil of the city to the environments of the country, with its plain honest people, pursuing lives of affection and honesty is in itself refreshing. Phil Maher was excellent in the role of "Tod Dailer," the village never-do-well and won the sympathy and the hearts of his audience who have become his adherents and look for a laugh whenever he appears. He demonstrated himself an interpreter of emotional parts as well as comedy by his excellent work last evening. The entire company appeared to advantage in their various roles. Tonight the western comedy, "In Montana," Saturday matinee, "Fritz in Dixie."

One of the best shows of the season is that at the Orpheum theatre and Manager Fenberg states that the posters are working for the pretty little play house was comfortably filled at both performances Thursday night.

The Dmetrescu troupe open the bill with their thrilling bar act and these clever kings of the air are proving a big hit. Polly Harger, singing comedienne, was secured at the last moment by the Orpheum manager. Sam & Murray had promised the local management to place the act in Newark before Miss Harger went on the big Eastern tour. He kept the wires hot all day Thursday and finally induced the booking agency to send Miss Harger to Newark.

Her song hits took immensely, and when she invited the audience to whistle the chorus of one of them everybody responded with a will. Her monologist work is very good and Miss Harger will help to pack the theatre during the balance of the engagement.

Boyd & Moran, comedy singers, with a great deal of travesty work, were a big scream. They have the audience with them from the start.

and for pains supreme for a quarter of an hour. Lola Milton & Co., producing a laughable farce entitled "That Girl," are the hits of the bill. Miss Milton's comedy work is something out of the ordinary and is a guaranteed cure for any case of the blues. Her every action is funny and her audience never becomes restless. The act closes with an excellent musical turn.

The amateurs will be given a chance at the second performance this evening and Manager Fenberg has a list of ten ones for tonight. Don't overlook them for it promises to be one of the best of the season.

Manager Fenberg, always looking for new ideas to give to his patrons of the Orpheum, will on Wednesday, May 18th, offer for the first time in Newark "A Country Store." This will take place after the second show on that night and no doubt will cause much laughter and pleasure to all who attend.

## Daddy's Bedtime Story—The Jealous Little Canary Bird

"YOU know, children," said daddy to Evelyn and Jack, "that in the city there are very few birds save in the parks. City life does not agree with most birds, and even if they happen to wander into the city they do not stay there very long. Once in awhile the city papers tell us an interesting thing of the finding of a small bird in the city."

"There is one sort of bird, however, of which there is plenty in the city. That is the little brown English sparrow, which fills the streets and makes its nest in trees and on roof tops. Some of the city people like the sparrows and feed them; but some of them think the little birds are a nuisance. Your Uncle John thinks so. Near his bedroom window there is a large tree, and the sparrows gather there early every morning in the spring and make so much noise with their chirping that they wake him up."

"There is one family in the city that is very fond of all birds. They have a parrot and a canary in cages, and they feed the sparrows every day. In the morning the mother takes all the bread crumbs they have and other scraps of food and throws them to the sparrows. The twittering and chirping around the house is something that can be heard a long way off. There is one sparrow, a little larger than most of the others, who is sure to be seen there every day, ready to get his share of the crumbs and to fight with any of the other sparrows who tries to push him away."

"Not long ago the little girl of the family coaxed this sparrow with crumbs to come into the dining room. It was very amusing to see the little brown bird make himself quite at home in the house as though he really belonged there instead of out in the street with the other sparrows. He was getting along splendidly when suddenly he looked up and saw the canary in a cage near the window of the room."

"Nothing would do this sparrow but to fly up to the cage and see what sort of a bird was locked up in the pretty brass house. But when he got near the cage it was plainly to be seen that he and the canary bird would never be friends. When the little yellow bird in the cage saw the little brown bird outside he ruffled up his feathers and went quite close to the bars of the cage and tried to peck at the sparrow. It seemed as though he was very jealous of the sparrow and wanted him to leave the room."

"Now, sparrows are very bold birds, as a rule, and are not afraid of anything. But they really are afraid of canary birds, and as soon as this sparrow saw that the bird in the cage was quite willing to fight with him he flew down and out of the open window. Then the canary began to sing."

"Since that time the little girl has never been able to coax the sparrow into the room."

## PREPARES SYSTEM FOR HOT WEATHER

Remarkable Results of Robinson "Thermal" for Rheumatism, Nervous Breakdown, Kidney Troubles, Skin and Other Diseases.

Does What No Drug on Earth Can Do.

Many startling results have been achieved by the use of the Thermal Bath. Rheumatism, nervous breakdown, kidney troubles, skin diseases, and other ailments are cured by the use of this new treatment.

It is in the bones and the change of the blood circulation, which is the cause of these ailments, that the Thermal Bath works. It is a natural process, and the body is cured by the use of this new treatment.

This is to certify that the undersigned, a resident of Newton, Iowa, was afflicted for twenty-one years with rheumatism, kidney trouble, and nervous breakdown. I had taken everything known to medical science, together with three seasons at Mineral Springs, without receiving relief. I commenced taking the Thermal Bath four years ago, and was completely cured. I continue the use of them, taking the baths every week in preference to water baths for keeping clean.

L. B. WESTBROOK, Newton, Iowa.

Every man or woman can now have a Thermal Bath at home, at a cost of but a few cents. This can be done only by the use of the Thermal Bath Cabinet, which is a model of perfection. No matter what the size of your house, you can have one of these cabinets.

The Robinson Thermal Bath Cabinet is now being exhibited and is for sale in Newark at W. A. Brown & Son, 1111 Third Street, and H. W. Smith. Ask your dealer for this great book, "The Physiology of Health and Disease." The regular price is \$1.00, but now for a limited time, it is only 50 cents.

If you want to see these cabinets, and how they are used, and how they are sold, call on the Robinson Thermal Bath Cabinet Co., 1111 Third Street, Newark, N. J., for full illustrated information, free.

**Just Like Father's.** The other day I took my young nephew to the barber for the first time. I hated to see the soft little curls cut off, but his mother decided they must go. As the barber tied the towel under his baby chin he remarked, "How do you want your hair cut, young man?" "Wif a little round hole in the top, like my father's."

**Mustard a Mouth Soap.** For chronic dark brown pusorous taste a pint of lukewarm water and a teaspoonful each of salt and ground mustard—queen bee of household utes. Cleansing, toning and antiseptic to coats of the stomach. Ground mustard is good for hand and mouth soap.

**For the Woman Who Cooks.** Few women can resist the appeal of a daintily made apron. For sewing or at a chafing dish an apron is indispensable, and many persons like to wear one around the house at light tasks that do not require them to be enveloped in more serviceable aprons.

A quality affair of this kind, one that would make a nice Christmas present, is so simple in construction that any one can develop it.

All that is needed is a square of this material—Persian lawn, sheer muslin or the barred dimity. The size of the square can be varied from a yard to forty inches or even more, according to the height of the wearer and the desired length of the apron.

Make an inch wide hem on the four sides and hemstitch it on one or both edges of the drawn threads, as preferred.

Hold the square to you with a point at the waist line, and at the waist line shape it by several groups of the longwise folds to form a small bib top. On each side of the point so formed put ties of the material two inches and a half wide. These may be hemstitched all around, or they can be hemstitched to the bib at the bottom.

This dainty apron is capable of many varied uses. In addition to the hemstitching, a brocade design can be worked in the corner that forms the bib and at the bottom corner directly below it, or the four corners can be embroidered, these opposite the bib line taking a smaller motif.

An individual touch can be given by hemstitching as described and working in the bib corner a large oval medallion with a monogram in the center. Touches of color could be introduced to the embroidery with good effect.

Many a fellow asks for a girl's hand who couldn't keep her in gloves.

**Among His Books.** Exactly what it means to be "literary" is an open question. Sometimes it implies that a person writes, sometimes merely that he is a lover of good reading. A new definition is suggested in the following story from the Denver Republican:

"Smith doesn't strike me as literary," remarked a man, "yet he declares that he never feels so comfortable as when he is snugly settled in his library."

"Oh, that's not surprising," explained his companion, "Smith's bookcase is a folding bed."

**That Depends on the Point of View.** An Englishman and an Irishman were overheard discussing Miss Annette Kellermann and her "Diving Venus" act at the Fifth Avenue Theatre recently. Said the former:

"She came nearer swimming the Channel than anybody ever did."

"How close did she come?" inquired the Irishman.

"Eleven miles."

"Which coast?"

"The English, I think."

"Then, begorra, that was close enough."—Success Magazine.

## CURES S.S.S. OLD SORES

Every old sore comes from some kind of impurity in the blood. It remains an open, discharging place on the flesh because the circulation constantly deposits into the fibres and tissues which surround the spot, the infectious matter with which the blood is contaminated. It is impossible for the sore to heal while the blood is in this impure state. S. S. S. heals old sores because it is the greatest of all blood purifiers; it goes into the circulation and removes the cause from the blood. When the blood has been purified there is no longer any inflammatory impurity or infectious matter to irritate the place, and nature causes a certain and natural healing of the ulcer. It is all well enough to endeavor to cleanse an old sore, or stop the itching, or absorb the discharge, with external applications, but a cure can never be reached in this way, because such applications do not reach the blood where the cause is located. S. S. S. does not simply cause a scab to form over an old sore, but beginning at the bottom it heals the place permanently by building new tissue, and filling the place with firm healthy flesh. S. S. S. is a purely botanical remedy, being made entirely of roots herbs and barks, each of which has a direct and lasting effect in removing impurities and poisons from the circulation. Old people who have suffered for years with a chronic sore will find S. S. S. a most helpful tonic and system builder in counteracting the debilitating effects of the old ulcer. The New Swirl Coiffure the Latest Change in Fashion World—Puffs, Rats and Barrettes Will be Gently Laid to Rest—New Effect is Charming and Youthful to All.

Many changes will soon come to pass in the world of fashion, but there will be none greater than the new coiffure, which is as different from the old as night is from day.

Puffs have seen their day, and so have rats, for the time being at least. Barrettes will be laid aside as curiosities of headgear for future generations to look upon with awe. Psyche knots will gently be put to rest in some secret cabinet drawer. Plumes and ospreys will no longer wave from the triumphant headdresses of the ladies at the opera. A simplicity has come to pass in the history of hairdressing, a simplicity which almost amounts to picturesque confusion.

The new fashion is called the French "swirl," and it is not an old fashion revived, but one entirely new distinct from anything that has ever been seen before in hairdressing. It is not necessarily neat in construction, but it is infinitely more becoming than the late arrangement of puffs or than its successor, the monstrous psyche. The French swirl will soften any face. It covers the ears and almost covers the forehead. There is no superstructure of obvious false hair to mar its outline, although to achieve it, it will probably be necessary to wear a fairly good sized switch. But in the mean time the tired hair is taking a long rest from its tortuous past. It lies naturally, and simply on the head and there is nothing extraordinary or conspicuous in its arrangement, for which heaven be praised. And, furthermore, it will be practically impossible to exaggerate the swirl or change its lines without changing the swirl itself into something entirely unfashionable.

In France already the new hairdressing mode is an accomplished fact. In England it is somewhat conventionalized and not nearly so picturesque. The swirl is drawn more neatly across the top of the head, something as the coronet braid used to be arranged, and the hair is built out more at the sides, leaving the ears half uncovered. And this is not at all as it should be for the ears should be as completely concealed as were those of Hawthorne's Donatello. Ears are not really an unbecoming feature, and make for character on a man's face, as may easily be noticed when a man wears long hair and his ears are covered up. But why is it so softening and beautifying to woman's face to cover up her ears? And why is it so hardening to her face when she brings her ears into prominence by wearing earrings? And these barbarous relics also will be put into their cases for the nonce, for earrings will not be worn this winter.

With the swirl comes back the fillet or old-fashioned snood which is also womanly and becoming and gives a sort of young girl effect to this already charming coiffure.

### PLACE TO KEEP NOTES.

Useful Article Designed for Memorandum Slips, Etc.

A useful little article that can be made in spare moments is a case for memorandum slips. It is designed for

containing unused half sheets of letters and other odd pieces of paper that are so useful for memos, and notes, and for which, if tidiness is to be regarded, a place must be found.

The case represented in our sketch is intended for hanging on the wall by the side of a writing table or some other suitable place, and is made of two pieces of cardboard covered with material and edged with cord. There is a ribbon loop at the top by which it may be suspended from the wall, and a small tab is sewn on in front into which a pencil can be slipped.

At the top inside two pieces of tape are sewn, and the papers are fastened in by piercing a hole in them and then pushing the tapes through and tying the ends together, and in this manner the papers can then be pulled away one by one as they are required. The word "memos" can be worked in silk on the front.

### Veil Adjustment.

To arrange a veil easily and smoothly fold it in the middle and gather for about an inch and a half at each side with a stout thread. Gather ends into small knots and sew securely. Fasten ends at back of hat with veil pin or pin on nape of neck with a barrette.

The next meeting will be held in Lima next year.

## WRINGERS FOR MOPS

Fastens in Corner of Sink and Squeezes the Yarn Dry.

A mop-wringer for ordinary household use has been devised by two Missouri men. There is a mop-wringing device attached to lockets used by janitors and members of the cleaning squad of office buildings, but such a contrivance is not so useful in the home as the device here shown. This new wringer consists of a conical can with a book on the side by which it can be hung in the corner of the kitchen sink. It is open at the bottom and has openings at the sides to permit the outflow of water. Along the inside is a series of blades that engage

the mop when it is thrust in the can and held in when it is twisted. A couple of twists of the handle and the yarn can be squeezed as dry as though it was run through a roller-wringer. This device has an additional advantage over the wringer attached to a bucket in that it can be used conveniently not only to dry a mop but also to wring out the small mop that women use in washing dishes.

## LECTURE TONIGHT AT HIGH SCHOOL

Tonight at the High School Auditorium at 8 o'clock, a superbly illustrated Travel Talk will be presented by Gilbert McClure of Colorado, entitled, "O. Brave, New World of Texas: Conqueror of the Desert and Master of the Sea." This will be given for the benefit of the High School Library. Sponsors, Mr. McClure tendering his services and those of his picnic operator gratis, and admission is 25 cents.

At Oberlin college and at Denison university, as also at Boston and Cincinnati (under auspices of the Woman's Club) Mr. McClure has secured audiences, over 2,000 at Oberlin, and the journals of the cities have given the evening talk a wide notice.

GILBERT MCCLURE, Who Will Lecture Tonight in High School Auditorium.

Judges of the Supreme court, senators and congressmen, captains of business with their suites, Admirals

Devey and Schloer and General Miles and the President's cabinet.

Three hundred and fifty beautifully colored stereoscopic slides for a brilliant panorama illustrating Mr. McClure's word pictures of the early Spanish, French and American explorers and pioneers; the romantic Spanish-Texas romance; the heroic and tragic defense of the Alamo; the battle of Jacinto, and the wondrous development of the largest commonwealth of our union.

Mr. McClure's travel talk is endorsed by the leading journals of America in dramatic, farcical, romantic, witty, picturesque and delivered in perfect English. He is endorsed by twenty-one great universities where he has lectured and by the boards of education of New York City and which he has lectured five years and in Newark, N. J., Pittsburg, Pa., Milwaukee, Chicago and St. Louis.

# ANTI-INJUNCTION BILL IN DOUBT

## Hung Up In House Judiciary Committee.

### IS OPPOSED BY LABOR UNIONS

**Fight Against Rural Parcels Post.**  
Rockefeller Threatens to Ask Some  
State For Foundation—275,000 Cor-  
porations Return \$26,000,000 In Tax.  
Oppose Amending of Reinsaid Bill.

Washington, May 12.—It is most im-  
probable that any anti-injunction leg-  
islation will pass this congress. There  
are several bills before the house judi-  
ciary committee, one of which, the  
Moon bill, is said to be favored by  
President Taft, but there is no im-  
mediate prospect of its being reported  
out, and even if it were it is now so  
late in the session that it could hardly  
get through the two houses. As a  
matter of fact, the labor unions are  
dissatisfied with the Moon bill, and as  
it has been the labor unions that have  
contended for anti-injunction laws the  
legislators believe that nothing would  
be gained by passing a halfway mea-  
sure that would not satisfy the labor  
unions. In other words, since there is  
but one element desiring the legisla-  
tion it would be as well to pass some-  
thing at all as to pass something not ac-  
ceptable to this element. The anti-  
injunction bill is one of the Taft poli-  
cies, but so far as congress is con-  
cerned it has been practically abandoned.

**Rural Parcels Post.**  
There are two parcels post bills be-  
fore the house committee, and some  
time ago a hearing was given, but  
nothing further has been done. One  
argument advanced in favor of the  
measures was that a parcels post  
would make it possible to pay better  
salaries to rural delivery men and make  
the rural service pay, which as a whole  
it does not now do. Local merchants  
are almost solidly arrayed against the  
proposition, and for that reason favor-  
able action on the bills at this session  
is most improbable. Postmaster Gen-  
eral Meyer has recommended the par-  
cels post and has asked that zone  
charges be incorporated, so that local  
merchants would have a more favor-  
able rate than distant concerns, such  
as mail order houses. The express  
companies are said to oppose the par-  
cels post. The Foster and Bennett bills  
provide for a rural parcels post that  
the authors claim would be an actual  
advantage to local merchants.

**Rockefeller Foundation In Doubt.**  
It has recently become apparent that  
John D. Rockefeller is displeased over  
the tardiness of congress in passing  
the bill to establish the Rockefeller  
foundation, and his attorney has in-  
dicated that the oil king would seek a  
charter for his charity in one of the  
states. Such opposition has developed  
in the senate that Senator Gallinger,  
the author of the bill, has decided not  
to call it up until there is time to dis-  
cuss it thoroughly, which means that  
it can hardly be passed at this session.

**Corporation Tax Receipts Large.**  
The receipts from the corporation  
tax exceed expectations. Secretary  
MacVeagh estimated that there would  
be about \$25,000,000, and it now ap-  
pears probable that there will be near-  
ly \$26,000,000. There have been com-  
paratively few failures to comply with  
the law. Nothing final has been deter-  
mined as to the publicity feature as  
yet. About 275,000 corporations are  
represented.

**To Resist Changes of Railroad Bill.**  
Since the return of the president  
there is an apparent determination on  
the part of those in charge of the rail-  
road bill to resist any further amend-  
ment of the measure. At one time it  
was intended to abandon the stocks  
and bonds feature, but now it is  
thought that by slight amendments  
this section can be retained. This may  
be true in the senate, but the house  
is a different proposition. Nothing de-  
finite can be predicted as to the mea-  
sure until it reaches conference, where  
it will be put into final shape. There  
has also been an attempt to galvanize  
the house post-office committee into life  
on the postal savings bank bill. On  
these two measures the president is  
determined to make his last stand, and  
it is possible that he can force them  
through in some form. There are still  
some appropriation bills to pass, so  
that there is little possibility of ad-  
journment before the middle of June  
or the 1st of July.

**No Congressional Sugar Trust Inquiry.**  
The speech message of the president  
informing the house that a congress-  
ional investigation of the sugar trust  
and custom house frauds would be in-  
expedient, has been warmly welcom-  
ed by the government. It is probable  
that the matter so far as con-  
gress is concerned, there will proba-  
bly be further discussion of the sub-  
ject, however, not only in the house,  
but during the campaign.

**Still Investigating.**  
The graft inquiries continue. Two  
senate seats are now involved, that of  
Senator Percy of Mississippi, who has  
asked for a state primary, and that of  
Senator Lorimer of Illinois. While this  
sort of thing is in vogue it might not  
be a bad idea for some of the other  
states to do a little probing of their  
own. The job should be so thorough  
as to discourage future grafters, if  
that species can be discouraged.

## GRANVILLE

Granville, May 12.—The decision of Dr. E. W. Hunt, president of Denison University, in refusing the offer of the position of foreign secretary to the National Baptist Missionary Union and to remain at the head of Denison University, was received here Thursday with very manifestation of satisfaction. When the news was circulated that Dr. Hunt had the matter of accepting the position tendered him by the Missionary Union under consideration, it was realized that there was great danger of Denison losing its president just at a time when he was most needed. A public meeting was called for the purpose of passing resolutions asking him to remain, but he ore the meeting could be held a telegram from Chicago was received in which it was stated that at a reception given in Chicago on Wednesday evening by Denison alumni Dr. Hunt had stated that he had decided to remain with Denison. It has been proposed, however, to hold the public meeting at the Town Hall this evening just at the same, although it will be turned into a "welcome home" to Granville's most honored citizen.

The twenty-first anniversary of the Epworth League will be held in the Methodist church at the regular teaching hour on Sunday evening. The young people will have charge of the program of address, music and socials. Sunday morning the pastor, the Rev. Mr. Miller, will preach on the subject "A Night on Gallies."

The Springfield company's well on the William Keller farm, south of the village was drilled in a few days ago, and has a volume of two million.

Mr. D. O. Hester of Arcanum, state examiner of the bureau of inspection and supervision of public office, with headquarters in Columbia, was in town this week and inspected the books of the corporation, treasurer, clerk and mayor, and the board of public affairs.

Rev. Charles J. Seasholes of Germantown, Pa., is the guest of Mr. W. P. McClan, his brother-in-law. Mr. Seasholes has many friends in Granville who are glad to greet him once more.

## RIDICULOUS.

We have surely been having our share of rain during the past week. Commencing Saturday afternoon and evening and continuing Sunday night, Monday afternoon and nearly all day Wednesday gave us the heaviest rainfall of the year. The roads in some parts of the country were bad for a short time, and the farmers were somewhat delayed with their corn planting.

The regular morning and evening services will be held at St. Luke's Episcopal church Sunday, conducted by the Rector, A. Ramsey. The Sunday morning services will be held at 10 o'clock. Acts 2: 4. Sunday school at 11 o'clock. Evening discourse, John 16: 7. Service and music appropriate to White-Sunday morning and evening.

Mr. and Mrs. H. M. Townsend, who have been visiting relatives and friends in Granville and vicinity for some days, have returned home after having had a very enjoyable visit.

Great preparations are already being made for the annual reunion of the Hawkins-Lamorne families, which is to be held on the first Wednesday in June. The reunion this year is to be held at the home of Mr. and Mrs. W. A. Wintermute in Liberty township, and it is expected that here will be a larger attendance than ever before, as quite a number of the relatives from distant parts of the country have written that it is their intention to be present at this gathering.

The Licking County W. C. T. U. will hold an institute here on Friday, May 13, at the Presbyterian church. There will be morning and evening sessions, closing in the evening with a Gold Medal contest.

## HIRAM ARNOLD SENT TO INFIRMARY

(Pataskala Standard).

Things were happening here for a time Tuesday morning when the infirmiry directors, reinforced by Marshal Cooper and a "posse" of citizens swooped down on Hiram Arnold in his little shack on West Depot street and loaded him into the infirmiry van for transportation to that institution. However, the telling of the affair is an easy proposition compared to the strenuous work of the officials.

He has lived alone in his shack for years amidst filth indescribable, and has long been helpless in his lower limbs, being compelled to crawl about on his stomach when necessary to move. However, he had funds and lacked for no necessities and existed in great content.

Citizens took action some time since, looking toward the abatement of what was rightly considered a nuisance, and in consequence the infirmiry officials came up on Tuesday for their charge.

While helpless in his legs, H. notwithstanding his age, is possessed of abnormal strength in his arms, and

resenting the purpose of the visit of his unwelcome guests, put up a stiff fight, it requiring five men to handle him. It was necessary to handcuff and bind him with ropes before he could be loaded into the wagon. It was a pitiable sight and only deep commiseration was felt for the old man who has a penchant for dirt and a total disregard for hygen and bodily raiment. He is far better off at the infirmiry, if he could but realize it.

**Saved Daughter's Life.**  
This Father Refused to Let His Daughter Die.

Here is a story with a moral that many parents might take to heart. "My daughter was very pale, nervous, thin, and suffered with severe pain in her back, so that we took her out of school. Her flesh became blue and she could not retain her urine. I spent over \$100 for medicines, but she grew worse. Finally I bought a bottle of Thompson's Barosma, and she began to grow better right away. Five bottles of Thompson's Barosma made a complete cure, and today she is a perfectly healthy girl. Thompson's Barosma saved her life, for she was falling so fast that death was not far off."—Frank D. Meeder, Pleasantville, Pa.

This letter will not surprise many good people in Newark and vicinity who know from actual experience what Thompson's Barosma, the safe and sane treatment and certain cure for all kidney, liver and bladder diseases will do.

If you are troubled with backache, side ache, weakners in the back, or any liver or kidney trouble, then it's time for Thompson's Barosma.

W. A. Erman & Son sell Thompson's Barosma in two sizes, 50 cents and \$1.00, and they guarantee it to cure Bright's disease, diabetes, high colored urine, bed-wetting, and all other kidney and liver diseases. It will make anyone vigorous in a few weeks, because it is a great tonic and maker of rich red blood.

The people just pour into The Jones-Evans Co.'s shoe store, wisely taking advantage of their peculiar position of being forced to close out their stock of Footwear. (Room to be used by the Y. M. C. A.) The slaughtered prices surely make things move. This is a pointer for the B. & O. employees this week especially. Go to The Jones-Evans Co. and save money.

All watches should be made water-tight, considering how often they are put in soak.

## THORNVILLE MAN IS A CANDIDATE

Another name was added to the list of candidates for state senator today when Attorney William A. Hise of Thornville announced his candidacy. The other candidates are W. E. Haas of Delaware, Charles W. Miller of Newark and Walter A. Alsford of Johnstown. The joint 15th-16th district comprises Delaware, Licking, Muskingum and Perry counties. This year two senators will be elected in this district.

## UNION STATION

E. H. Hancock and W. W. McCarthy were in Newark Thursday.

The school at No. 6 and also at No. 12 closed Saturday with a picnic dinner and a good program in the afternoon.

Mr. Solomon Spangler of Lancaster, who is visiting his daughters, Mrs. T. P. Jones and Mrs. E. B. Hancock, was present at the dinner at No. 12 school and gave a short sketch of the school houses in his boyhood days, 75 years ago, and also recited a poem that he spoke seventy-two years ago in the old log school house with its small panes of glass that went the length of the school house and its slab seats without any backs. Mr. Hancock also spoke a piece of war times. "Where Thomas Held the Hill at Chickamauga." Not many of the younger people, with all their school advantages, can do better than they did.

Mr. and Mrs. T. Edgar Jones are the happy parents of an eight month baby girl, born last Thursday.

Miss Mamie Leard of Granville spent from Friday till Monday with Miss Louise Williams.

Mr. and Mrs. N. C. Brown Jr. visited Sunday with the former's father, Mrs. Otto Thorp entertained at dinner Sunday her grandfather of Lancaster and her father.

Mr. and Mrs. Taverney of Hebron called at the home of J. C. Banby Sunday afternoon.

## LONG'S

(Of Course)

A GOOD TIME FOR JENKINS

Before Harrowsome met a girl, who was the most wonderful creature the world had ever seen, and married her, thus retiring into oblivion so far as most of his friends were concerned, he and Jenkins had been bosom friends.

Marriage having whisked Harrowsome off to the suburbs, he and Jenkins had seen little of each other in the three years which followed.

Jenkins had paid his wedding call and had been asked out to dinner, but suburban time tables finally got in their deadly work, so it had been many moons since he and the Harrowsomes had met in a social way.

Rushing into the bank just before closing time the other day, Jenkins ran full tilt into Harrowsome.

"Why didn't you ever come round and see us?" demanded the latter. "Can't you come tomorrow night? We'll have a regular good old time. Grace has a pretty girl visiting, and we'll play whist. And you have never seen my boy."

"I'll come," said the innocent Jenkins, lured by the whist and the pretty girl. If there is anything he likes it is a good game of cards with congenial friends and a decent cigar to follow.

Miss Barrett did not believe the reputation given her. She was more than pretty—she was charming. Jenkins knew it the minute he laid eyes on her. And he was to face her across the card table all the evening, besides talking to her at dinner.

It was after the cigars were finished that the first cloud appeared.

"Now for the boy," Harrowsome said, beaming. "I've got a treat for you, Jenk, old man. You're to be allowed to come up to the nursery and see him put to bed. He's the greatest fun."

"Oh! certainly," said Jenkins, politely.

Miss Barrett smiled sweetly and said she would read till their return, as the nursery was small and would not hold a crowd. Jenkins reflected that the ordeal would soon be over. He surveyed the infant with the nervous air of an amateur.

"What's your name?" he asked, his face contorted by what he felt to be a smile.

"Oh! pshaw," broke in Harrowsome, indignantly. "Don't you know anything at all? You'll be offering him a cigar next."

Harrowsome junior objected to the sleep producing process and bowed lustily.

"Aren't his lungs great?" asked the proud father.

"They seem all wool and a yard wide," said Jenkins, with feeble mirth. He was thinking about Miss Barrett in the library below.

"And music!" began Harrowsome. "Sometimes he kicks when he gets cross—maybe he will tonight. Cross you think he will, Grace?"

"Will there be room?" asked Jenkins anxiously, with the hope that he might escape downstairs, where the attraction was.

"You needn't get nervous," said Harrowsome. "I want to tell you what he did the other day. If he isn't the smartest kid in the world, tell me."

The story lasted fifteen minutes, but Harrowsome junior was finally tucked into bed, and Jenkins arose with alacrity.

"You go down, Grace," said Harrowsome senior. "Jenk and I'll stay here till the boy is asleep. He always wants his father to sit with him till bye bye comes," explained Harrowsome facetiously, to his now hopeless friend.

It was half an hour before the small tyrant sunk into slumber. His father put in the time rehearsing his feats. Jenkin's one timid inquiry as to Miss Barrett's home and the length of her visit at the house was totally unheard.

At last they went downstairs and the load went off Jenkins' mind. Miss Barrett was still as beautiful as ever and not a whit less charming than when he had been torn away from her.

For twenty minutes there was peace and happiness. Jenkins decided that her eyelashes were longer than any he had previously seen, when there was a wail from upstairs.

The card game was stopped. Mrs. Harrowsome went up to investigate the trouble but Jenkins did not mind that, because he could look at Miss Barrett with undivided attention and deep admiration.

For about one minute—then the hostess called Miss Barrett up to the nursery.

In undisguised gloom Jenkins stalked and listened to his host's recital of more juvenile brilliancies for an interminable time till the two women returned. Then Jenkins rose.

"You're not going?" they cried.

"It's time for my last train," said Jenkins quite coldly. "No, I'm sorry, but I can't wait any later. I've had a delightful evening. I assure you. Oh! yes, thank you, I'll call again."

The only thing which saved him from bitterly concluding the Harrowsomes had wrecked the romance of his life was the later discovery that Miss Barrett lives only six doors from his own home. So he has forgiven them.—Illustrated Bits.

WILL ORGANIZE  
HUMANE SOCIETY

Mrs. E. Irene Rood, National Repre-  
sentative, Says "Humaneness is  
the Test of Civilization."

There will be a meeting at the Y.  
M. C. A. Auditorium Monday even-  
ing, May 16, at 7:30 o'clock to or-  
ganize a Society for the Prevention  
of Cruelty to Children and Animals.  
A number of prominent gentlemen  
will make short speeches and a fine  
musical program will be rendered.  
The meeting has been called by Mrs.  
E. Irene Rood, the National Repre-  
sentative of the American Humane  
Association, who has been in the  
city for several days.

Mrs. Rood is the founder of the  
Audubon Society and the author of  
the bill known as the "Rood Hu-  
mane Education Bill," which has  
been passed in a number of states,  
and is an enthusiast in this work  
to which she has given many years  
of her life and has met with wonderful  
success in getting laws passed for  
the benefit of helpless children and  
dumb animals.

Dumb! Dumb animals! What an  
immense exhortation to pity that is.  
But few people outside, have any  
idea of the magnitude of the work  
that is going on all over the United  
States today, in behalf of helpless  
children and dumb animals by the  
Humane societies. If we used an  
argument on which to urge humani-  
ty to animals we find it in philan-  
thropy, the love of man himself; for  
as the circle widens to admit these  
humbler members of the Father's  
house all the human will rise into  
kindlier regard. The whole dramatic,  
pathetic existence of God's great  
speechless multitude is practically  
the same great mystery it was in the  
beginning. In the third chapter of  
Eccliesiastes the Bible says:

"Yea, ye all have one breath; so,
